

**“Australia is rapidly becoming a major global technology and financial services hub. We have the talent, infrastructure, location and lifestyle necessary to be among the best in the world. As an Australian company, Afterpay is proud to play a role in making that happen.”**

The Australian Government’s support for innovation, through initiatives like the Global Talent Visa Program, help us attract the best talent globally and bring them to Australia. This is vital for us to compete on the international stage while growing jobs and skills in Australia. Over time, this also plays a critical role in fostering the next generation of local start-ups.”

- Anthony Eisen  
CEO and Co-founder, Afterpay
