

Global Talent Visa Program

This information is intended to provide prospective applicants and migration agents an indication of the calibre and specialisations that the Global Talent Visa Program seeks to attract.

Australia is seeking exceptionally talented individuals across a range of priority sectors who can demonstrate some of the following abilities:

- bring exceptional new skills and knowledge to Australia
- have the potential to make a significant economic impact
- have been recognised with international distinction as a leader in one of the priority sectors
- generate employment, particularly in areas that fill critical supply chain and talent gaps
- commercialise ideas at scale
- act as a connector between industries
- make an impact as an innovator or serial entrepreneur
- have the ability to attract a salary at or above the Fair Work high income threshold (AUD\$162,000)

Priority Sectors

- **Advanced manufacturing**
- Agri-food and AgTech
- Circular economy
- Defence
- Digitech
- Education
- Energy
- Financial services & FinTech
- Health industries
- Infrastructure and tourism
- Resources
- Space

Visa Requirements

- Be currently prominent and have an internationally recognised record of exceptional and outstanding achievement in one of Australia's priority sectors.
- Be nominated by an Australian citizen, an Australian permanent resident, an eligible New Zealand citizen, or an Australian organisation with a national reputation in the applicant's sector.
- Be an asset to the Australian community.
- Have the ability to establish themselves in Australia in a priority sector.
- Meet health, character and national security requirements.

Application process

- **Step one:** Submit an Expression of Interest using the online [Global Talent contact form](#).
- **Step two:** Once invited, apply for a visa online via [ImmiAccount](#).

Sector Overview—Advanced Manufacturing

Australia is fuelling new opportunities and scaling up enterprises in our surging and sustainable manufacturing industry – supported by the AUD\$1.5 billion Modern Manufacturing Strategy. As a cross-cutting sector, Advanced Manufacturing is a critical enabler and contributor to sectors including medtech, clean energy, circular economy, agri-food, critical minerals processing, defence and space.

To drive this sector forward, Australia is looking for talented individuals able to make an impact across the entire value chain, from manufacturing, research and design to logistics and after-sales service.

The following specialisations are intended to be used as a guide and are not an exhaustive list. The Global Talent Profile provides examples of the calibre of individuals who may meet program requirements.

Specialisations

- Advanced materials
- Additive manufacturing (3D printing), materials resilience and repair
- Data analytics including artificial intelligence and machine learning
- Digital design and rapid prototyping
- Digitisation, Automation and Robotics including drone management and manipulation
- Precision engineering and manufacturing
- Nano-manufacturing and micro-manufacturing
- Sustainable manufacturing and life cycle engineering
- Bio-manufacturing and biological integration
- Biotechnologies
- Supply chain resilience
- Commercialisation experience within the industry

Global Talent Profile

Exceptional candidates

- A leading researcher in Micro and Nano Electro-Mechanical Systems that owns multiple patents.
- Chief technology officer of an internationally acclaimed manufacturer of sensors for electronic devices in the healthcare, robotics, and digital manufacturing sectors.

Strong candidates

- Senior data scientist specialising in designing machine learning algorithms and neural network models, with experience in commercialising artificial intelligence projects for automotive and intelligent devices.

The following experience or professions **would not** usually meet the parameters of the program:

- Engineering technicians
- Machine operators
- Draftspersons
- Sales and administrative managers
