

Global Talent Visa Program

This information is intended to provide prospective applicants and migration agents an indication of the calibre and specialisations that the Global Talent Visa Program seeks to attract.

Australia is seeking exceptionally talented individuals across a range of priority sectors who can demonstrate some of the following abilities:

- bring exceptional new skills and knowledge to Australia
- have the potential to make a significant economic impact
- have been recognised with international distinction as a leader in one of the priority sectors
- generate employment, particularly in areas that fill critical supply chain and talent gaps
- commercialise ideas at scale
- act as a connector between industries
- make an impact as an innovator or serial entrepreneur
- have the ability to attract a salary at or above the Fair Work high income threshold (AUD\$162,000)

Priority Sectors

- Advanced manufacturing
- Agri-food and AgTech
- **Circular economy**
- Defence
- Digitech
- Education
- Energy
- Financial services & FinTech
- Health industries
- Infrastructure and tourism
- Resources
- Space

Visa Requirements

- Be currently prominent and have an internationally recognised record of exceptional and outstanding achievement in one of Australia's priority sectors.
- Be nominated by an Australian citizen, an Australian permanent resident, an eligible New Zealand citizen, or an Australian organisation with a national reputation in the applicant's sector.
- Be an asset to the Australian community.
- Have the ability to establish themselves in Australia in a priority sector.
- Meet health, character and national security requirements.

Application process

- **Step one:** Submit an Expression of Interest using the online [Global Talent contact form](#).
- **Step two:** Once invited, apply for a visa online via [ImmiAccount](#).

Sector Overview—Circular Economy

Australia is serious about reducing our waste and putting it to work. To drive the evolution to a circular economy, Australia is backing schemes to modernise and transform how we manage and treat waste under the National Waste Policy Action Plan. This is supported by the AUD\$190 million Recycling Modernisation Fund that will generate AUD\$600 million of recycling investment and drive a billion-dollar transformation of Australia's waste and recycling capacity.

Our transformation into a circular economy demands new technologies and individuals with the expertise to make it happen.

The following specialisations are intended to be used as a guide and are not an exhaustive list. The Global Talent Profile provides examples of the calibre of individuals who may meet program requirements.

Specialisations

- Artificial Intelligence and digital technologies.
- Bioenergy generation
- Bio-methane production
- Commercialisation experience within the industry
- Development of sustainable production and supply chain practices that reduce atmospheric land and marine pollution
- Energy infrastructure
- Environmental science
- Recycling and responsible manufacturing to support industries (plastics, paper, glass, tyre components, e-waste and lithium batteries)
- Reducing emissions and increasing efficient use of natural resources (including energy, water and materials)
- Sustainable manufacturing and life-cycle engineering specialists
- Waste treatment (management and reuse) and emissions technology
- Waste to Energy (WtE) technology (the ability to generate reliable baseload electricity that is also capable of diverting waste away from landfill and reducing carbon emissions)

Global Talent Profile

Exceptional candidates

- Senior Well Engineering manager responsible for managing multiple advanced carbon capture usage and storage projects.

Strong candidates

- Post-doctoral researcher with well cited high impact publications in the fields of metallurgy, circular economy, critical metals and solar photovoltaic end of life issues.

The following experience or professions **would not** usually meet the parameters of the program:

- Engineers and mechanics who do not lead international projects
- Sales or purchasing representatives
