

Global Talent Visa Program

This information is intended to provide prospective applicants and migration agents an indication of the calibre and specialisations that the Global Talent Visa Program seeks to attract.

Australia is seeking exceptionally talented individuals across a range of priority sectors who can demonstrate some of the following abilities:

- bring exceptional new skills and knowledge to Australia
- have the potential to make a significant economic impact
- have been recognised with international distinction as a leader in one of the priority sectors
- generate employment, particularly in areas that fill critical supply chain and talent gaps
- commercialise ideas at scale
- act as a connector between industries
- make an impact as an innovator or serial entrepreneur
- have the ability to attract a salary at or above the Fair Work high income threshold (AUD\$162,000)

Priority Sectors

- Advanced manufacturing
- Agri-food and AgTech
- Circular economy
- Defence
- Digitech
- Education
- Energy
- Financial services & FinTech
- Health industries
- Infrastructure and tourism
- **Resources**
- Space

Visa Requirements

- Be currently prominent and have an internationally recognised record of exceptional and outstanding achievement in one of Australia's priority sectors.
- Be nominated by an Australian citizen, an Australian permanent resident, an eligible New Zealand citizen, or an Australian organisation with a national reputation in the applicant's sector.
- Be an asset to the Australian community.
- Have the ability to establish themselves in Australia in a priority sector.
- Meet health, character and national security requirements.

Application process

- **Step one:** Submit an Expression of Interest using the online [Global Talent contact form](#).
- **Step two:** Once invited, apply for a visa online via [ImmiAccount](#).

Sector Overview—Resources

Australia is abundant in resources – critical, sustainable and mineral. As a global leader, our resources sector is defined by un-relenting development and innovation.

To stay at the top, we are looking for individuals with a proven track record of natural resource development. This includes extraction, mining technology and development, processing and associated services. Australia’s resources sector includes resources such as iron ore, coal, natural gas, oil, water, gold, aluminium, and sustainable resources.

The following specialisations are intended to be used as a guide and are not an exhaustive list. The Global Talent Profile provides examples of the calibre of individuals who may meet program requirements.

Specialisations

- Geology and metallurgy
- Resource waste management
- Mining and petroleum engineering
- Automation, connectivity, Industry 4.0 skills
- Beneficiation technologies (improving the economic value of ore etc.)
- Energy saving technologies for extracting and processing ores, such as:
 - ore body mapping
 - geophysical tools and drilling
 - mineral refinement
 - automated trucks and robotic equipment
 - grinding and processing technologies
- Exploration services
- Market intelligence
- Technical equipment manufacturing

Global Talent Profile

Exceptional candidates

- Managing director of a technology and innovation unit of an international mining corporation with a global track record in the delivery of safe, cost effective, and complex multi-billion dollar projects.

Strong candidates

- Executive with extensive experience in subsea system development, execution and operation for a top-tier oil and gas company.
- A leading researcher with expertise in heat and mass transfer, phase change and metallurgical transformation in high temperature systems.

The following experience or professions **would not** usually meet the parameters of the program:

- Site managers
- Engineers and mechanics
- Technicians and construction workers
